

You can download and print the CAPF 101 Specialty Qualification Card on the CAP e-services site.

First log into **CAP e-services** <https://www.caphq.gov/CAP.eServices.Web/Default.aspx>

Under CAP Utilities in the left column click on **My Operations Qualifications/National Reports**

On the displayed Operations Qualifications page click on the Emergency Services tab at the top

See the displayed 101 Card page

This application allows you to print a CAPF 101(E)-Specialty Qualification Card at any given time. The CAPF101 card will be "VOID" if you do not provide your personal characteristics (Height, Weight, Eye color, and Hair color). The picture on CAPF101 is an optional feature. However, in order for your picture to be visible you must provide your personal characteristics for identification purposes. To update characteristics please go to the Personal Information Change Application. Your current specialties are listed below with their expiration dates. Specialties that you are only allowed to serve as a supervised trainee are preceded by an asterisk (\*). When a specialty expires, you will no longer be allowed to serve in that specialty in a qualified or trainee status until the Member Information Management System (MIMS) is updated and you print a new card. If you have any questions or comments, please contact HQ CAP/DOS.
